

Model No:
08-ANT-0882

Router and stick antenna
not included.

Product Overview

Introducing the revolutionary MultiPolarizer™; an easy to install WiFi signal harvester that improves the connectivity of any stick antenna. Much like gutters on a house that direct collected rain into a continuous concentrated stream, the MultiPolarizer™ collects and directs normally missed WiFi radio waves into a focused stream of information that it then transfers to the stick antenna of the wireless device. Based upon the combined theories of electromagnetic field coupling, energy harvesting and MultiPolarization, MP Antenna created the MultiPolarizer™ empowering anyone to quickly and easily improve WiFi performance. No Batteries or power required, simply slip the MultiPolarizer™ onto any standard WiFi antenna to experience faster throughput and stronger signals in weak coverage areas.

M-POL™ Certified is MP Antenna's exclusive assurance that MultiPolarized antenna technology is incorporated into a world class product to provide superior connectivity in real world obstructed environments.

Features

- MultiPolarized
- Obstruction Penetrating Send and Receive
- Enhanced Connectivity and Throughput
- Built In Spatial Diversity.
- Easy slip on Installation
- **M-POL™** Quality and Performance

Applications

- 2.4 GHz ISM WiFi Band Applications
- 802.11b,g,n Wireless Systems
- Wireless Broadband Systems
- WiFi Access Point, Router, Bridge, CPE
- USB and PCI Wireless cards
- VoIP phone systems
- Wireless Camera Systems
- Cordless Phones
- Wireless Video Game Adapters

* **MP Antenna** products and technology are protected under United States Patent No. 6,496,152. Other patents pending. Please contact MP Antenna for information about using or licensing **MP Antenna** products or technology. REV: 021010

MultiPolarizer™ 2.4GHz Data Sheet

MultiPolarized WiFi Signal Harvester

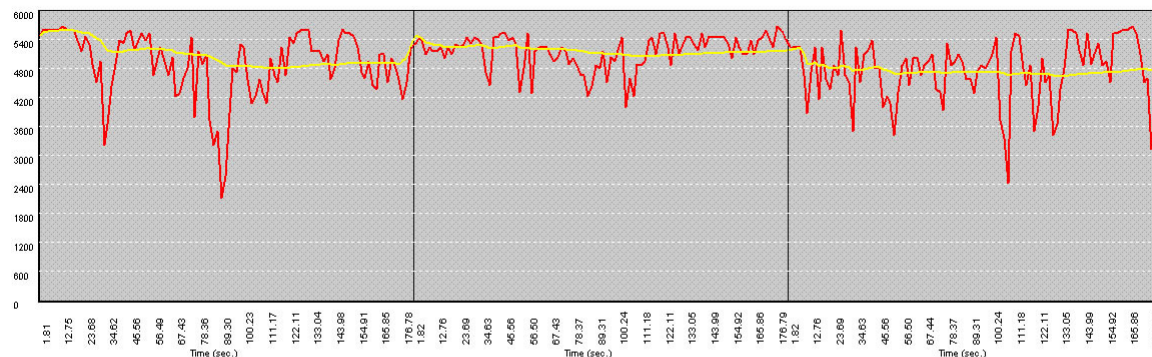

Model No:
08-ANT-0882

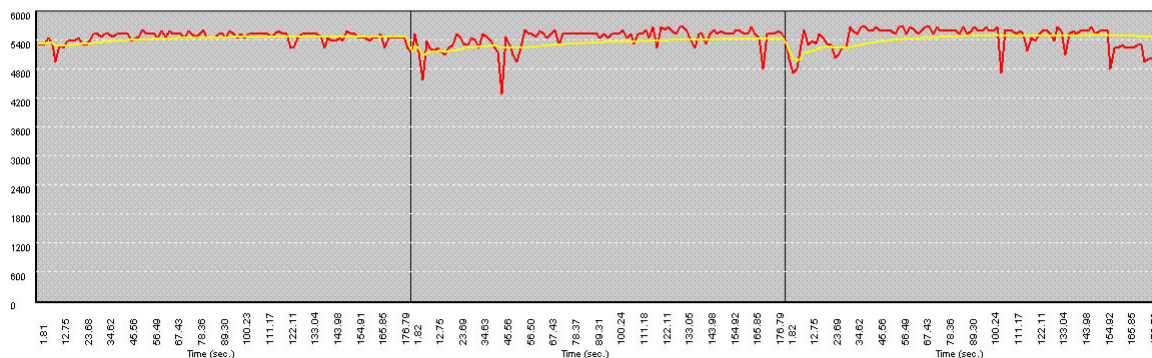

Signal Stability Test

Network Data Sent (KBits/Sec.)

Standard Antenna

Standard Antenna With MultiPolarizer™

■ Data Sent Kbits/Sec.
■ Average Data Sent

Physical Specifications

Width: 3.6 in
Height: 5.0 in
Depth: 2.5 in
Weight: .25 oz
Construction: Polypropylene & bronze
Warranty: One year limited.
Fits: 2.4GHz Stick Antennas
Dia: .28 in to .30 in

Typical Performance

Frequency
Range: 2.4GHz Band
Pattern: True Isotropic
Polarization: MultiPolarized
